

Cloud Computing Infrastructure

Aug 27 – 29, 2025

Venue: PIM, Islamabad.

Rs. 41,000/=

Cloud computing gives your business more flexibility. Cloud computing is all about the delivery of computing services like databases, software, analytics, servers, storage, networking, and intelligence. You can quickly scale resources and storage up to meet business demands without having to invest in physical infrastructure. Companies don't need to pay for or build the infrastructure needed to support their highest load levels.

COURSE UTILITY:

- Cost effective
- Improves a company's flexibility
- Better storage solutions
- Bigger business market share

WHO MUST ATTEND?

The course is beneficial and productive for IT professionals, project managers, cloud architect, IT infrastructure specialist, and Cloud service provider to get better understanding of state of the art IT storage trends.
