

Inventory Management and Warehousing

Nov 02 – 03, 2026	Venue: PIM, Karachi	Rs. 39,000/=
Aug 10 – 11, 2026	Venue: PIM, Lahore.	Rs. 39,000/=
Sep 07 – 08, 2026	Venue: PIM, Islamabad.	Rs. 39,000/=

Course Description

Effective inventory management and warehousing serve as the vital cornerstones of modern supply chain excellence, directly impacting organizational efficiency, cost optimization, and customer loyalty. In an era where precision is paramount, the ability to maintain optimal stock levels while orchestrating seamless warehouse operations allows businesses to eliminate stockouts, reduce carrying costs, and ensure rapid order fulfillment. This course, Inventory Management & Warehousing, is designed to transform your approach to materials management by providing a comprehensive deep dive into inventory classifications, sophisticated tracking systems, and the architectural design of efficient storage solutions. Through this program, participants will master the skills necessary to streamline workflows and optimize resources, ultimately delivering exceptional value in an increasingly competitive marketplace.

LEARNING OUTCOMES:

1. Master Inventory Foundations: Develop a comprehensive understanding of core inventory and warehouse management principles to drive operational success.
2. Implement Advanced Control Techniques: Apply proven tools and quantitative techniques to optimize stock levels and ensure precise inventory control.
3. Optimize Warehouse Workflows: Evaluate and execute best practices for efficient warehousing operations to maximize space utilization and throughput.

COURSE OUTLINE:

- Strategic Inventory Control: Master the fundamentals of inventory classifications and cost structures while implementing high-impact tracking methods, valuation techniques, and decision-driven control models like ABC analysis to ensure record accuracy.

- Warehouse Optimization and Technology: Design and manage high-performance warehouse environments by optimizing layouts, dock planning, and material handling functions through the integration of modern equipment and warehousing technologies.

WHO SHOULD ATTEND:

- Inventory Planners and Stock Controllers
- Warehouse and Distribution Managers
- Logistics and Supply Chain Coordinators
- Operations and Production Supervisors
